PROFESSIONAL SUMMARY

Experienced iOS Developer with over 5 years of expertise in designing and delivering innovative, user-centric applications for iOS platforms. Proficient in Swift, Objective-C, and SwiftUI, with a deep understanding of UIKit, CoreData, and RESTful APIs. Adept at integrating third-party SDKs, optimizing app performance, and implementing advanced features like NFC, live streaming, and VoIP. Known for creating scalable, crash-free applications and delivering seamless user experiences across diverse domains, including social media, gaming, healthcare, and security. Passionate about leveraging the latest technologies to solve complex problems and drive client satisfaction.

EXPERIENCE

Matellio India Pvt. Ltd, Jodhpur— Senior *iOS Developer*

JULY 2021 - PRESENT

- Spearheaded the development of high-performance, feature-rich iOS applications, implementing best practices in design patterns and code quality.
- Successfully delivered key projects including 1+1 Cares, Finaciti, Hypertherm Cartridge Reader, and BIZLINX.AI, enhancing client satisfaction.
- Collaborated with cross-functional teams to integrate third-party tools such as Twilio Chat, RevenueCat, and Branch IO for added functionality.
- Implemented VoIP notifications with custom UI using Agora SDK and CallKit for audio/video call features.
- Led the localization of complex apps, delivering seamless multi-language support.
- Optimized app performance, reducing load times by up to 30% through efficient memory management and debugging techniques.

Square Bits Private Limited, Jodhpur — *iOS Developer*

JUNE 2019 - JULY 2021

- Worked on 10+ iOS applications, delivering high-quality solutions to clients across various domains such as healthcare, finance, education, and e-commerce.
- Implemented integration of RESTful APIs and executed advanced JSON data parsing techniques, resulting in a streamlined synchronization process that improved application performance across 10+ iOS projects.
- Ensured apps adhered to Apple's Human Interface Guidelines, successfully passing App Store reviews on the first submission for all projects
- Developed and maintained reusable code for future use.

PROJECTS

Total Health:

A comprehensive health monitoring app with a focus on user engagement and data analytics.

Finaciti:

Financial management app with complex reporting, optimized for user-friendly navigation.

U Golf:

Developed a golfing app designed for professionals and enthusiasts, offering features like real-time course tracking, scoring, and statistics analysis.

1+1 Cares:

Built a caregiver marketplace connecting care seekers with trusted caregivers, focusing on transparency and usability.

Hypertherm:

NFC-enabled cartridge reader app with data visualization, CSV export, and analytics.

ISIT:

Faith-based social media platform with Twilio audio/video calls, chat, and Agora live streaming.

NOMM Social:

Instagram-like app featuring posts, stories, chats, profile verification, communities, in-app purchases, and multi-language support.

CloseUP:

Online trivia game where players earn points by making predictions close to correct answers and compete on leaderboards.

SDD CAM (Self Defense Dash Camera):

Security app designed as a silent witness, focusing on the user instead of the road.
